WAIT TIMES

Empower your diners to order from their tables instantly. Reduce waiter bottlenecks, speed up table turnover, and completely modernize your dining floor.

JALDI ORDER

The ultimate digital table-ordering revolution built for massive restaurant turnover.

WHY CHOOSE US?

A digital menu upgrade that directly accelerates your service speed.

Zero Waiter Bottleneck

Customers no longer have to blindly try to flag down busy waiters. They scan and order independently from their table instantly.

App-less Innovation

Browsing feels like a native phone application, but is delivered entirely through the mobile browser with zero required downloads.

Real-time Kitchen Sync

Orders appear instantly in the live Admin Dashboard sorted flawlessly by Table number, immediately boosting kitchen prep times.

THE PROCESS

- **1 SCAN**
Diner scans their unique table QR code.
- **2 BROWSE**
They visually explore your menu.
- **3 ORDER**
Order is sent directly to the kitchen.
- **4 SERVE**
Waiter runs food instantly to table.

THE COST

Less than the cost of printing menus.

ANNUAL LICENSE

₹ **20,000** /YR

Includes setup & real-time updates
